

CARE AND MAINTENANCE

Electronic Thermostatic Shower Mixer

B&M SKU: ID700.A3/1 Idral code: 700.A3/1

Routine care

- Clean visible surfaces with a soft cloth, warm water and a mild pH-neutral detergent. Rinse thoroughly and wipe dry to reduce water marks.
- Do not use abrasive pads or powders, chlorine concentrates, strong acids or alkalis, solvents, metal tools or cleaners unsuitable for chrome, stainless steel or plastic.
- Keep the sensor window clean and unobstructed. Check battery/power supply, solenoid, filters and automatic safety shut-off during planned service.

Service

Use compatible Idral replacement parts. Service frequency depends on water quality and usage; high-use public shower installations require more frequent inspection. After service, restore supplies slowly and test leakage, flow, timing, temperature and automatic shut-off as applicable.
