

INSTALLATION GUIDANCE

Electronic Thermostatic Shower Mixer

B&M SKU: ID700.A3/1 Idral code: 700.A3/1

Installation sequence

- 1 Check the product, exact variant and all supplied components against the accompanying Idral technical drawing before installation.
- 2 Isolate the water supply and flush the pipework thoroughly to remove debris before making final connections.
- 3 Mount the concealed chassis or valve body at the finished-wall depth shown in the technical drawing, leaving the power unit, solenoid and filters accessible.
- 4 Connect water supplies to the marked inlets. Complete 230 V electrical work only by a qualified electrician; fit the specified battery for battery-operated versions.
- 5 Fit the sensor/trim, restore supplies and power, then commission sensor range, ON/OFF operation, safety shut-off, flow and leak tightness.

Important

Installation should be completed by competent personnel. The supplied Idral technical drawing, product-specific safety requirements and local water/electrical regulations remain authoritative.
