

CARE AND MAINTENANCE

Shower-Tray Waste Trap

B&M SKU: ID15600 Idral code: 15600

Routine care

- Clean visible surfaces with a soft cloth, warm water and a mild pH-neutral detergent. Rinse thoroughly and wipe dry to reduce water marks.
- Do not use abrasive pads or powders, chlorine concentrates, strong acids or alkalis, solvents, metal tools or cleaners unsuitable for chrome, stainless steel or plastic.
- Remove accessible debris, flush the waste and confirm free drainage. Inspect seals and connections for leakage and retain access for future cleaning.

Service

Use compatible Idral replacement parts. Service frequency depends on water quality and usage; high-use public shower installations require more frequent inspection. After service, restore supplies slowly and test leakage, flow, timing, temperature and automatic shut-off as applicable.
